

# Solidification & Stabilization (S/S) Science Forum

You are invited to attend the fifth  
Nova Scotia Environment and Labour Science Forum

**Wednesday, August 29, 2007**

Regency Ballroom, Lord Nelson Hotel, Halifax

Keynote address: Edward Bates - Physical Scientist with the United States  
Environmental Protection Agency (USEPA)

The forum is intended to provide an opportunity to exchange knowledge with stakeholders and interested members of the public to build capacity and awareness of S/S treatment technology and management issues. The forum will provide an opportunity to learn more about the science behind S/S and learn from experts that have carried out S/S projects throughout the world.

To register contact:

Judy Peitzsche 902-424-6254

or register by email at [peitzsjd@gov.ns.ca](mailto:peitzsjd@gov.ns.ca)

Please provide: full name, affiliation, phone number and e-mail

*If you have already pre-registered for the S/S Science Forum through the Canadian Land Reclamation Association (CLRA) Conference registration form, you do not need to reply to this email as you are already registered.*

**No charge for registration and lunch will be provided**
